

# 1 Homework G

- **Due: Tuesday, September 22, 2:45 PM**
- Please refer to the [syllabus](#) for homework policies.
- If you explicitly do not want your submission to be considered as a solution key, please state so clearly at the top of your submission.
- If you put your solutions for different problems on different pages (e.g., with the `\clearpage` command) that would be appreciated.
- *A previous version of this homework asked for all of exercise 5. Since we did not do max flow until Thursday, I am pushing the second part to Friday.*
