

1 Homework R

- **Due:** *Thursday, October 29, 2:45 PM*¹
- Please refer to the [syllabus](#) for homework policies.
- If you explicitly do not want your submission to be considered as a solution key, please state so clearly at the top of your submission.
- If you put your solutions for different problems on different pages (e.g., with the `\clearpage` command) that would be appreciated.

Problems

1. Exercise 4 in the [typed notes](#).
2. Exercise 5 in the [typed notes](#).

¹I realize that I have recently been having homework due on Friday's, but actually these exercises will be very useful for Thursday's lectures. Hopefully the previous homework being short makes it for it to small extent.
